

FCC Commissioners  
The Federal Communications Commission RE: Docket 04-435  
445 12th Street, SW  
Washington, DC 20554

Dear FCC Commissioners ,

The cabin of a plane is a classic example of a situation where you are a "captive audience". Therefore, it is absolutely important that passengers not be subjected to other people's sound. Therefore, I am firmly opposed to allowing cell phones on airplanes. If this is allowed to become law, I will picket at the airport.

I might go further and ask that passengers be prohibited from using VOIP technology to make phone calls. It should also be a rule that you cannot generate any sound from electronic devices (e.g. playing a movie) except through headphones.

Thank you,

Jerry Cole

Sincerely,

Jerry Cole
